PROFESSIONAL SUMMARY

Information Science student with a concentration in UX Design at the University of Tennessee, focused on creating user-friendly digital experiences and solving problems through technology. Skilled in UX design, user research, Figma, Adobe Creative Suite, WordPress, Python, communication, and teamwork. Seeking UX and product design internship opportunities.

SKILLS

- Design & Research:** UX Design, User Research, Prototyping, Wireframing, Figma, FigJam
Visual & Web: Adobe Photoshop, Adobe Illustrator, Adobe Creative Suite, WordPress, Webflow
Development: React, JavaScript, CSS, C, C++, Python
Other: Microsoft Excel, Data Analytics, Problem Solving, AI: Anthropic Claude

EMPLOYMENT HISTORY

- Fibers and Composites Manufacturing Facility (FCMF) | University of Tennessee** June 2026 - Present
Undergraduate Media & Website Design Assistant / Social Media & Web Design Researcher | Knoxville, TN
- Completely reworked the facility's news section on WordPress, improving content structure and visual presentation
 - Designed and wrote student bio pages, creating a more cohesive presentation of student researchers on the site
 - Manage LinkedIn content for facility tours, extending design work beyond the website into social channels
 - Produce graphics, photography, and social media content using Adobe Photoshop and Illustrator while collaborating with faculty and researchers
- Outback Steakhouse** Jun 2023 - Present
Server | Kingston, TN
- Deliver high-quality customer service in a fast-paced environment while managing multiple tables, transactions, and guest needs
 - Built strong communication, multitasking, and problem-solving skills through daily high-volume customer interactions, developing user-empathy applicable to design work

PROJECTS

- Tesla Homepage Redesign** UX/UI Design, Figma
- Redesigned Tesla's homepage to preserve its minimal, seamless brand aesthetic while improving navigation clarity and engagement
 - Conducted a heuristic review of the existing homepage to identify navigation and hierarchy pain points, then translated findings into wireframes and high-fidelity Figma mockups
 - Iterated on hero section, typography, and content grouping to balance visual simplicity with more intuitive information architecture
- Discord Notifications & Search Redesign** UX/UI Design, Figma
- Identified two core UX problems through team research: notification fragmentation across global, server, and channel-level settings, and a mobile search regression introduced by a recent app update
 - Contributed to user flows and low-fidelity wireframes addressing both issues, prioritizing the mobile experience per project scope
 - Developed high-fidelity screens consistent with Discord's existing visual language, focused on reducing time-to-find for critical messages

EDUCATION

- University of Tennessee** Aug 2025 - Present
Bachelor of Science in Information Science - Concentration in UX Design | Knoxville, TN
- Developing skills in UX design, user research, Figma, information systems, Python, data analysis, and user-centered design
- University of Virginia's College at Wise** Aug 2024 - May 2025
Computer Science | Wise, VA
- Oak Ridge High School** Jul 2020 - May 2024
High School Diploma | Varsity Football Running Back | Region 3-5 MVP | 2x All-Region | 1x All-State
