University of Virginia's College at Wise

Undergraduate coursework, Computer Science

Aug 2024 - May 2025

Wise, VA

- Football student-athlete

RELEVANT EXPERIENCE

Tombras

Incoming UX Analyst Intern

Oct 2026 - Dec 2026

Knoxville, TN

- Selected for the Fall 2026 UX Analyst internship supporting website audits focused on usability, content quality, accessibility, and SEO.
- Will contribute to UX design and performance reporting through pre-launch QA/testing, documenting functional, visual, and rendering issues and collaborating on fixes.

Fibers and Composites Manufacturing Facility (FCMF) | University of Tennessee, Knoxville

Undergraduate Media & Website Design Assistant

Jun 2026 - Present

Knoxville, TN

- Design and maintain WordPress content across 6+ site sections, improving navigation, usability, visual consistency, accessibility, and readability for research and student-focused pages.
- Create web graphics, research spotlights, social media assets, and photo edits in Adobe Photoshop and Illustrator, translating technical research into clear public-facing content.
- Collaborate with faculty and researchers to organize technical information, refine page layouts, and publish accurate updates for students, industry partners, and site visitors.

PROJECT EXPERIENCE

Autm Music Stat Tracker - In Development

2026

- HTML, CSS, JavaScript, Last.fm API | [GitHub](#)
- Building a responsive music stats web app with friend activity cards, search, add/remove interactions, and localStorage persistence using vanilla JavaScript.
- Developing Last.fm API integration with asynchronous fetch requests to display recent listening activity and ranked artists, tracks, and albums across selectable time periods.

Netflix Homepage Redesign

2026

- UX/UI Design, Figma & FigJam
- Redesigned Netflix's homepage to reduce visual clutter and improve content discovery through customizable rows, pinning, hiding, and clearer genre browsing.
- Conducted user research and translated findings into wireframes, high-fidelity mockups, and an interactive prototype using Figma and FigJam.

Discord Notifications & Search Redesign

2026

- UX/UI Design, Figma
- Mapped notification and search user flows to identify usability issues and navigation friction, then redesigned key screens to make important messages easier to discover and manage.
- Created user flows, wireframes, high-fidelity UI mockups, and a clickable Figma prototype aligned with Discord's existing design language.

SKILLS

- **Design & Research:** Figma, FigJam, wireframing, prototyping, user flows, user research, UX design, AI-powered user experiences, usability, accessibility, inclusive design
- **Creative:** Adobe Photoshop, Adobe Illustrator, Adobe Creative Suite
- **Web & Technical:** WordPress, Webflow, HTML, CSS, JavaScript, React, Python, SQL, C, C++, Git
- **Data & Productivity:** Microsoft Excel, data analysis, Microsoft PowerPoint, Microsoft Word
